ROME ITALY

MICS 2018 is a two-day symposium focused specifically on the newest issues of minimally and ultra-minimally invasive and robotic mitral, tricuspid, atrial fibrillation surgery and less conventional catheter based mitral procedures.

This Conference is organized by the Mitral Academy, a cultural association whose goals include a common work platform dedicated to the progress gained in the medical-scientific field by mitral valve surgery.

MICS 2018 is addressed for cardiac surgeons, interventional and non-interventional cardiologists, anesthesiologists and perfusionists involved in minimally invasive mitral valve surgery, ranging from basic diagnosis to advanced treatment.

World Opinion Leaders within this subject have been invited as Faculty to share their experience with the audience.

HIGHLIGHTS

- Basic Sciences
- Transcatheter mitral therapies
- Tricuspid valve regurgitation
- Transcatheter tricuspid therapies
- Tricuspid valve surgery
- Advanced and unconventional mitral repair
- Ultra minimally and robotic mitral surgery
- Apical approach
- Valve in valve procedures
- New technologies
- AF surgical and non surgical treatment
- Left appendage occlusion, device and strategy
- Mitral valve Surgery (degenerative, ischemic, endocarditis and rheumatic)
- Mitral and heart failure
- Minimally invasive arena video session

CALL FOR ABSTRACTS AND VIDEOS

The Conference welcomes the submission of abstracts and videos of original contributions to the field.

Submission deadline: April 6, 2018.

All accepted abstracts and videos will be presented as ePosters or mini-oral Abstracts in the Breakout Session.

The best Contribution will be admitted to a 7 minute oral presentation in Plenary Session.

Authors will be notified by e-mail whether their abstract/video has been accepted and will be provided with the instructions for on site presentation.

To submit an abstract/video, please download the Abstract Form on **www.mics2018.it** and follow the instructions for Authors.

If submitting a video you must submit the Abstract Form as well.

The contributions must be sent to the Organizing Secretariat (**mics2018@mitralacademy.it**), as pdf attachment or as .mpeg2, .wmv, .avi, .mp3, .mp4, .wav, if submitting a video.

It is kindly requested to fill the abstract form and to print it as pdf.

All Contributions must be saved with the name of the Presenting Author.

Please note that at least the First Author should be duly registered in the Conference.
